Property Description

Located in one of the most promising areas of the Costa Rican Pacific, this beachfront property in Puntarenas offers 10,000 m² of land with direct ocean access and spectacular views of the mangrove bay. It is a unique opportunity to develop an exclusive luxury residential complex with a private yacht club, or to renovate its existing 36 suites to operate a high-end resort. The land allows for the construction of up to six stories and more than 50 residences, in addition to a private marina with a 150-meter jetty, expandable to 300 meters, with capacity for 60–80 boats. This infrastructure offers enormous revenue potential from slip rentals, boat services, and charters. As an added benefit, the property has a free import license, allowing the importation of materials and equipment tax-free, increasing the project's profitability. Just 1.5 hours from Juan Santamaría International Airport, this property's strategic location benefits from Puntarenas' tourism boom, surrounded by beaches, growing infrastructure, and an expanding real estate market.
