

\$274,000

ID: 1128996064

Land For Sale

Osa, Puntarenas

Property Type: Land • Size: 1,605 SQ M •

- Status: Available

Property Description

- Location: Downtown Uvita, a central and convenient location. This is advantageous for both commercial and residential uses, as it's accessible to amenities, services, and potential customers or residents.
- Commercial/Residential Zoning: The property's zoning for both commercial and residential use offers flexibility. You could consider a variety of developments, such as a mixed-use building, retail space on the ground floor with residential units above, or a purely residential development.
- Public Utilities: Public water and electric services available on the property is a significant benefit. This can save on the costs and logistical challenges associated with setting up private utilities.
- Ready to Build: The fact that the lot is ready to build on is a considerable advantage. It reduces the time and effort required for pre-construction preparations.
- Flat Lot: A flat lot is generally easier to build on compared to a sloped one.
