Property Description

This is one of the best farms available on the Southern Pacific Coast of Costa Rica!! Words can not describe how amazing the views are and the amount of usable land that allows for any type of project from hobby farms to retreat centers to housing development. The property has public road frontage and AYA water so there is no limit to what can be done here. This property has so much more to offer including the deep, cold mountain springs. The front ridge is almost a full kilometer and gives you 360-degree views of the ocean, including whale's tail, and around the Chirripo mountain range, Costa Rica's tallest peak. 80% of the property is cleared pasture land ready for development for eco-tourism, farming, livestock, etc. Internal roads are being cut to give you access to the different areas and its own cloud forest with trails in the middle that gives some separation and privacy.
