Property Description

Rare Ocean View Estate Opportunity in the Heart of Manuel Antonio It is becoming increasingly rare to find properties in Manuel Antonio that offer a perfect balance of privacy, expansive ocean views, abundant wildlife, and a prime central location. This extraordinary estate opportunity brings all of that and more—set on nearly 3,000 square meters (just under 3/4 of an acre) of fully usable land, in one of the most sought-after areas of Costa Rica's Pacific coast. Perched on gently sloping terrain, the property offers breathtaking ocean views from nearly every corner, with ideal topography that allows for the development of multiple homes or villas, each positioned to maintain unobstructed views. Surrounded by lush rainforest and located directly adjacent to two of the area's most exclusive and successful boutique resorts, this estate lies within a natural wildlife corridor, regularly visited by monkeys, sloths, toucans, and scarlet macaws.
